Career Objective

Motivated Cybersecurity Analyst with hands-on experience in vulnerability assessment, web application security, and API testing through internship and personal projects. Seeking an entry-level Cybersecurity Analyst or SOC Analyst role to contribute technical skills and strengthen organizational security.

Skills

Cybersecurity Tools: Burp Suite, Nmap, OWASP ZAP, Wireshark, Splunk, Wazuh, SQLMap, Nikto, Gobuster, Postman, Git, VS Code

Core Competencies: Web Application Security, API Security, Vulnerability Assessment & Penetration Testing (VAPT), Security Monitoring, Log Analysis, OWASP Top 10, Authentication & Authorization Testing, Session Management, Linux, TCP/IP, DNS, HTTP/HTTPS, PostgreSQL, MySQL, SQLite

Programming & Scripting: Bash, Python, JavaScript (ES6), C, C++, HTML5, CSS3

Experience

Junior Cyber Security Intern

July 2026 – Present

Hackware Security Solutions LLP

Kochi, Kerala

- Performed authenticated web application security assessments across multiple web applications to identify and validate security vulnerabilities.
- Conducted REST API security testing by evaluating authentication, authorization, session management, and business logic using Burp Suite and OWASP testing methodologies.
- Identified and validated vulnerabilities including Cross-Site Scripting (XSS), Sensitive Data Exposure, Weak Password Policy, Missing Security Headers, and OTP Rate Limiting issues, and documented remediation recommendations.
- Prepared professional Vulnerability Assessment and Penetration Testing (VAPT) reports and collaborated with mentors during vulnerability validation and reporting.

Projects

VulnLab – Hands-on Web Application Security Learning Platform

Node.js, Express.js, PostgreSQL, JWT

- Designed and developed a full-stack cybersecurity training platform simulating OWASP Top 10 vulnerabilities, including SQL Injection, XSS, IDOR, SSRF, CSRF, Command Injection, Path Traversal, and File Upload vulnerabilities.
- Implemented JWT Authentication, Role-Based Access Control (RBAC), bcrypt password hashing, secure REST APIs, PostgreSQL integration, audit logging, and rate limiting.
- Independently designed, developed, tested, documented, and deployed the application using Git, GitHub, and Render while following secure software development practices.

Education

Advanced Diploma in Information Security (ADIS)

2025 – 2026

Offenso Hackers Academy

Bachelor of Computer Applications (BCA)

2022 – 2025

Mahatma Gandhi University

Achievements

- **CTF Participation:** Actively participated in Capture The Flag (CTF) challenges focusing on web application security, Linux, networking, cryptography, and vulnerability analysis.
- **Cybersecurity Portfolio:** Designed and deployed a responsive personal portfolio using React, Vite, Tailwind CSS, and GitHub Pages to showcase projects, internship experience, and technical skills.
